

From 2023.Oct.1st~

Handling of burnable garbage bags will be changed!

* Why do we change? *

Considering the government policy, we review of garbage bags prices, and we carry out waste volume reduction, recycling and our awareness.

* Effectiveness *

Considering the philosophy of the SDGs, we will construct a resources recycling society, and actualize a carbon-free society.

1 Summary of New System

Garbage bag is available in three sizes.

Current System (Until 2023.Sep.30)

Garbage bag for PET Bottles (recyclable)	Liter 60L	If you use up all, you can purchase the bags 150 yen for 10 bags.

Free bags not available.
Changed

Free bags for a certain number.
Not changed

In order to promote the recyclable garbage sorting and reduce the amount of burnable garbage, there is a difference in price between burnable garbage and recyclable garbage.
